Objective

QA Automation Engineer skilled in Python and Selenium, with hands-on experience building automated test scripts and frameworks. Completed end-to-end web application testing using the SauceDemo project, including login, checkout, and workflow automation. Ready to improve software quality and deliver reliable automation from day one.

Education

- **St. Gabriel Senior seconday**   2022
  High school
  80%

- **High school**   2019-2020

  87%

- **Hitkarini's College of engineering technology**   2022-2026
  Computer Science and Engineering
  7.4

Skills

- Python programming
- Git, Github
- Selenium python
- Manual Testing

Projects

- **Automation testing on saucedemo site**
  SauceDemo Automation Project
  Automated end-to-end testing of SauceDemo using Python, Selenium, POM, and PyTest. Covered login, product selection, cart, and checkout with assertions and screenshot-on-failure, gaining hands-on experience in real-world test automation.
